

**WAX REPORT - 40th Annual Snow Mountain Ranch Stampede, Classic
3km/12.5km/25km/50km Sunday, March 10th**

Date: March 5, 2024

Location: Snow Mountain Ranch, Granby, CO

Wax Reporter: Drew Gelinis

Snow & Weather Conditions

The Nordic Center received 16" of new snow this weekend and the trails are in great shape. Cold temps in the evenings and a chance of additional accumulation throughout the week.

Tuesday Night

Mostly cloudy, with a low around 7. Southwest wind 5 to 7 mph becoming calm after midnight.

Wednesday

A 40 percent chance of snow after 11am. Partly sunny, with a high near 36. Light west southwest wind becoming west 8 to 13 mph in the morning. Winds could gust as high as 21 mph. New snow accumulation of less than a half inch possible.

Wednesday Night

A 20 percent chance of snow showers. Mostly cloudy, with a low around 8. Light and variable wind.

Thursday

Snow showers, mainly after 11am. Some thunder is also possible. High near 36. Calm wind becoming north around 5 mph in the afternoon. Chance of precipitation is 80%.

Thursday Night

Snow likely, mainly before 11pm. Some thunder is also possible. Cloudy, with a low around 13. Chance of precipitation is 70%.

Friday

Snow likely, mainly after 11am. Mostly cloudy, with a high near 31. Chance of precipitation is 70%.

Friday Night

Mostly cloudy, with a low around 3.

Saturday

Sunny, with a high near 35.

Saturday Night

Mostly clear, with a low around 4.

Sunday

Mostly sunny, with a high near 38.

Tier 1 - Recommendations	Tier 2 - Recommendations
<p>Glide Wax: HS7 glide wax ironed in at 150C. Scrape and brush. This temp range will cover the broadest window but check start times and adjust if needed. Earlier start and shorter distance may opt for HS6.</p> <p>Top Coat: HS7 Liquid applied with fleece cork (T00021) and let dry. Roto fleece (T0018F) and then brush. Thinner layer is better.</p> <p>Structure: T0410-075G or T0410-050V</p> <p>Binder: Rough kick zone with 120 grit sandpaper (T0011SP) and Synthetic Combi Cork (T0011). Iron in VG030 binder.</p> <p>Kick: V0040 Blue Extra</p>	<p>Glide Wax: Marathon White Powder ironed in at 155C. Scrape and brush.</p> <p>Top Coat: TS7 Liquid apply thin layer with fleece cork (T0021) and let dry. Roto fleece (T0018F) and then brush. You can also use the TST7 Turbo block roto fleeced in.</p> <p>Structure: T0410-075G or T0410-050V</p> <p>Binder: Rough kick zone with 120 grit sandpaper (T0011SP) and Synthetic Combi Cork (T0011). Iron in VG030 binder.</p> <p>Kick: V0040 Blue Extra or VP40. Start time and distance will impact kick selection.</p>

NOTES: Keep an eye on hourly start times. If running the 25 km or 50 km, opt for the Marathon White as it will offer the greatest durability and glide properties for longer distances. Sand kick zone for greater binder adhesion.
